A final year undergraduate student of BE software engineering from NED University having a keen interest in web development, machine learning and AI currently working on natural language processing via streamlit platform.

**SUBJECT:** I'm looking forward for opportunities in the IT sector mainly related to Software Engineering, Data Science, Analytics and Machine Learning.

## EDUCATION

<b>BACHELORS IN SOFTWARE ENGINEERING, NEDUET</b> CGPA – 3.697	<b>2018 – 2022</b>
<b>INTERMEDIATE, BAHRIA COLLEGE KARSAZ</b> Grade: 85.6%	<b>2016 – 2018</b>
<b>MATRIC SCIENCE, THE CRESCENT ACADEMY</b> Grade: 92.8% (6 <sup>th</sup> position in BSEK Results 2016)	<b>2005 – 2016</b>

## EXPERIENCE

<b>GLOBAL TECHSPRINT LEADERSHIP PROGRAM, JUUBIX</b> Worked as a team lead in Product Marketing side preparing white paper document and worked on enhancing pitch deck model. Worked in design team for web/mobile alpha versions of the company website.	<b>Feb 2022- May 2022</b>
<b>ML MODEL MANAGEMENT TEAM LEAD, OMDENA SL CHAPTER</b> Worked as a Task Leader on Model Management side for predicting the Tea leaf quality via Pytorch models. Deployed Classifier model on Microsoft Azure Container Instance.	<b>Sep 2021- Oct 2021</b>
<b>DATA SCIENCE INTERN, BUSINESS EXPERTS PAKISTAN</b> Worked on RASA NLU deep learning platform for creating AI chat bot.	<b>Dec 2020 – Mar 2021</b>
<b>VIRTUAL DATA ANALYTICS INTERNEE, INSIDESHERPA</b> This was my first ever virtual internship at KPMG and I got some data insights into customer segmentation, data visualizations, and interpretations in relation to valuation, company's growth and investment selection. It was for sure a cool introduction to the business organizations' operational capabilities and managing risks.	<b>Jul 2020 - Aug 2020</b>

## TECHNICAL SKILLS
